BIG DEAL IN MINING LAND.

R. W. Wilson Sells the Tom Lanham Place Near the Crittenden Springs and Some Small Adjoining Tracts.

BLUE & NUNN, THE PURCHASERS.

Land Adjoins the "Nine Acres" on Which they Already Own the Mineral Rights.

We copy the following important item from the Dixon Journal.

"A discovery has been made a short distance from Dixon which is calculated to prove a great boon to the town. Black Jack zinc has been found cropping out from the branch banks, and on top of the ground, and everything indicates that the metal abounds in great quantities. The zinc is about 50 or 60 per cent. pure, and such ore is worth about \$25 per ton.

Should this find prove what everything now indicates it will mean a great deal to Dixon and Webster county. At present the future looks exceedingly bright for Dixon, and we would not be surprised if in the near future Dixon should find herself in the midst of the biggest boom any Webster county town has ever had. It is known to many that we have more than one of as good mineral wells as the country affords, and many will testify to the health giving properties of this water.

Our Lola correspondent says: "No mineral found. Johnson Bros. of Lola have been prospecting near the iron bridge near Deer Creek on the Dixie road, and we struck a vein of blue spar so solid that blasting will be on the means of removal. They do not know the width of the vein, at twenty feet the whole shaft seems perfectly solid in the bottom, and work had to be suspended until better preparations could be made. All this output is to be sold over that new railroad we ant. From Carrsville to Marion will suit very well.

We had the pleasure of visiting B. W. Bell mines today, two miles east of Lola, and find every-

thing progressing nicely; shaft 80 feet. Quite a nice little plant they have, and to see the large boulders of spar filled with lead makes one feel like "The reward is sent unto the faithful." This certainly is a fine property; and one of the kinds of places it takes to encourage that new railroad we need so badly.

The existence of a considerable tonnage of foreign lead in bond is made known by the statistics of the United States imports of merchandise during the fiscal year closing June 30, 1901. The heavy increase in the production of domestic lead has practically kept pace with the deliveries of metal to consumers, although during the recent Colorado troubles some foreign lead was used by domestic consumers.

The total import of foreign lead during the past fiscal year aggregated 101,693 tons, as against imports of the preceding year of 105,852 tons. Naturally the greater portion of this lead imported came from Mexico, which shipped 99,254 tons to this country. British North American shipments aggregated 8,578 tons, while Europe furnished about 1,000 tons. Exports of foreign lead during the year just ended aggregated 85,897 tons, valued at \$39.71 per ton, the average import value per ton being \$33.17. Exports of domestic lead, including type and other manufactured products of lead aggregated \$538,020, as against a total value of exports the preceding year of \$452,702. Lead and Zinc News.

Miss Browning as previously announced in these columns had a position offered her in the Evansville City Schools. As her relatives had located there she accepted it and will teach there this fall.

The Columbia vein in the Crittenden Springs tract is already proven and mining people are beginning to realize it. The Columbia mill and the complete mining plant on the "Nine Acres" Maj. Clement's mine (which, however, is said to be on a cross vein, and which, if true, makes it all the better), and then the Mountain Lead, Zinc, Fluor Spar Co.'s mine, which is capitalized at \$100,000, and it is building a road to get out to market with their product, all go to show that mining people are "on". Still investors go off to undeveloped fields where all is uncertainty. Ere many months the developments and actual shipment from this small scope will equal if not exceed any in the entire district.

Surveyors were busy running lines and finding corners of the Tom Lanham farm near Crittenden springs; also several small adjoining tracts, in all some 190 acres, lying south of the Tolu

We accept our part of the indirect publishing of the Crittenden Press, recently given Hardin's papers for not helping the Press more in its endeavor at mining publicity. The Press must remember that what we have done has been done single handed and alone; we have only barely succeeded in getting our people interested while all the people of Crittenden county have helped the Press all along from the start and this makes a big difference in the success of one's work.—Hardin

Our Cave-in-Rock correspondent says:

A large barge loaded with machinery, lumber, implements, wagons, brick, lime, cement, etc., for the Cave-in-Rock Mining Company arrived on the 15th. C. A. Okerson is hauling it out to their mine with his large traction engine.

Our Sheridan correspondent sends the following:

Mining is still going on in full blast and new mines are being opened every week.

Last week Felix Cox resumed work on his farm and has encountered a fine vein of spar and lead.

Bob Yates has begun work at his old shaft with Doo Stallions at the wheel.

A CRUEL JOKE.

A. D. Johnson need never look in this direction for a kind word. He has broken off the friendship that has existed between him and this paper for many years. He promised to send us a young eagle. He sent us what we thought was a young eagle, and after arranging a large cage for it, and feeding it juicy meat from Mr. Whitehead's shop, we invited a dozen gentlemen to call and see our rare bird. R. W. Gray, Tom Chester and R. E. Zimmerman said it was a young buzzard. We would not believe Mr. Johnson would perpetrate such a malicious

joke, although we had heard of some of his night prowling, so we called in Henry Fisher, Tom Roberts, Will Clinton and others—asked their opinion of the kind of fowl we were harboring.

They said our King of Birds was a young buzzard, and then we swore that we would tell we ever heard on the man who had played

on our ignorance, and we now in-

form the public that A. D. John-

son has been known to rob bee-

trees in the dead of night, and if

he does not apologize, we will tell

whose bee tree he cut.—Colum-

road, Blue & Nunn having purchased it of R. W. Wilson at almost \$10,000. The Lanham place was purchased by Mr. Wilson a few years ago for \$600, and was optioned several times to different parties, once to J. G. Rochester at \$2,000. This sale is a bona fide sale, the purchasers taking the land in fee simple. This land adjoins and surrounds the "9 acres" in which the milling plant has been erected, in sight of the Crittenden Springs Hotel to the south of the famous buckeye corner.

The Cave-in-Rock Mining Co. had a towing steamer bring in a big barge load of stuff for the big Hogan mine north, and our river bank is now covered all over with heavy timbers, a big 50 horse power boiler, a huge engine, of the best pattern and build, etc., while the steamer and barge have returned to Louisville after another load of crushers, tools, piping, etc. This one mine will open the eyes of the monied world and remove all doubt as to our great mineral wealth here.—Hardin Era.

MAY TAKE THE STUMP.

Evansville, N. Y., Aug. 17.—Near 10 o'clock this morning arriving at Marion from the west, Judge Parker, to go on a stamping and cheering the campaign and visiting the state. This was received from him today from G. V. Morris of Mt. Vernon, Ind., a delegate from Evansville, Ind., so much encouragement was received that they remained over night at Judge Parker's home to be on the receipt of a western report.

Judge Parker determined soon after his arrival by the St. Louis resolution that he would conduct the personal campaign from Indianapolis, but since the notification ceremonies so much pressure has been brought to bear upon him that he has promised to give the convention session a definite.

WIFE WHIPS DAINTY WIDOW.

Evansville, Ind., Aug. 20.—Extremely jealous of her husband, David Mills, a local druggist, Mrs. Mary Stone, a pretty widow, whom she thought was winning the affection of her husband, and gave her a severe beating without mercy.

Mrs. Mills went to the home of the widow and calling her out she whopped her without mercy.

Mrs. Stone finally escaped, but not until the whip had been worn out. The woman was arrested and held over trial in police court this morning.

Mrs. Stone says large welts were left on her back, neck, and arms. Both women are well known here. Mills has been prominent in politics for a number of years. The women were fined.

PREFERRED DEATH.

Hopkinsville, Ky., Aug. 17.—Desperate over the discovery of alleged forgeries she had committed, Miss Nell Clark, a beautiful Christian county girl attempted suicide in her home near Crafton by swallowing a capsule of cyanide of potassium. There is scarcely a chance for her recovery. Miss Clark is a member of the oldest family in north Christian county and a granddaughter of Jim Clark, founder of the Universalist church in Kentucky. Last Saturday it was learned that checks for \$500 and \$100 on the account of Walter D. Bowles, young farmer, cashed for her by the Bank of Hopkinsville were forged. The bank officials had the sheriff to arrest her Clark Saturday night, but a compromise had been agreed upon.

PEARL HUNTERS.

The pearl industry is to be opened up on Green river. Thursday there was a man here from Illinois who went to the Kellogg hardware store to purchase some tools. While there he told Mr. Kellogg that he had been prospecting in Barren and Green rivers, and that the field was very inviting, especially on upper Green river, toward Mammoth Cave.

He will be joined here in a few days by a number of other men, and they will go to upper Green river and begin operations on a pretty extensive scale.

There can be no doubt but that plenty of pearls are to be found in Green river for many beautiful ones have already been found in those waters. There can be little doubt that these pearl hunters will make the business pay, as they seem to thoroughly understand it and have been engaged in it for several years. Bowling Green Times-Journal.

Bishop Joseph S. Key, Southern M. E. Church, writes: "We gave Dr. Moffett's 'CERTAIN' (Teething Powder) to our little grandchild with the happiest results. The effects were almost magical, and certainly more satisfactory than anything we ever used." "CERTAIN" (Teething Powder) Counteracts and Overcomes the Effects of the Summer Heat.

YOUR KIDNEYS ARE THEY WELL?

Unless they are, good health is impossible.

Every drop of blood in the body passes through and is filtered by healthy kidneys every three minutes. Sound kidneys strain out the impurities from the blood, diseased kidneys do not, hence you are sick. FOLEY'S KIDNEY CURE makes the kidneys well so they will eliminate the poisons from the blood. It removes the cause of the many diseases resulting from disordered kidneys which have allowed your whole system to become poisoned.

Rheumatism, Bad Blood, Gout, Gravel, Dropsy, Inflammation of the Bladder, Diabetes and Bright's Disease, and many others, are all due to disordered kidneys. A simple test for Kidney disease is to set aside your urine in a bottle or glass for twenty-four hours. If there is a sediment or a cloudy appearance, it indicates that your kidneys are diseased, and unless something is done they become more and more affected until Bright's Disease or Diabetes develops.

FOLEY'S KIDNEY CURE is the only preparation which will positively cure all forms of Kidney and Bladder troubles, and cure you permanently. It is a safe remedy and certain in results.

If You are a sufferer, take FOLEY'S KIDNEY CURE at once. It will make you well.

Some Pronounced Incurable

Mr. G. A. Stillson, a merchant of Tampico, Ill., writes: "FOLEY'S KIDNEY CURE is meeting with wonderful success. It has cured some cases here that physicians pronounced Incurable. I myself am able to testify to its merits. My face today is a living picture of health and FOLEY'S KIDNEY CURE has made it such."

Had Lumbago and Kidney Trouble

Edward Huss, a well known business man of Salisbury, Mo., writes: "I wish to say for the benefit of others, that I was a sufferer from lumbago and kidney trouble, and all the remedies I took gave me no relief. I began to take FOLEY'S KIDNEY CURE, and after the use of three bottles I am cured."

For President,
JUDGE ALTON B. PARKER,
Of New York.

For Vice President,
HON. HENRY G. DAVIS,
Of West Virginia.

For Congress,
OLIE M. JAMES.

At White Sulphur Springs, in
West Virginia, August 17th, Hon.
Henry G. Davis was notified of his
nomination by the Democratic
National Convention for the Vice
Presidency of the United States.
There were hundreds of people
present from Virginia and the
bordering States. Mr. Davis ac-
cepted the nomination in a plain,
practical speech, devoid of rhetor-
ical frills or useless verbiage. It
was a speech alike worthy of the
man and of the great party and
principles for which he stands.
Among other good things he paid
the following beautiful and de-
served tribute to Judge Alton B.
Parker:

"I congratulate your committee
and the constituency it represents
in the selection by the delegates
to the national convention of the
nominee for the Presidency. He
is a man of courage, yet prudent;
of high ideas yet without pre-
tense; of the most wholesome re-
spect for the constitution and the
majesty of the laws under it, and
a cord regard for their limita-
tions; of the keenest sense of jus-
tice which would rebel against

FAVORS PARKER

Astrologer Finds That Planets Indicate Judge's Election.

A Chicago astrologer, A. E. Baumgart, reads in the stars that Judge Parker will be elected President. Here is his forecast.

"President Roosevelt was nominated on June 23 at 1:19 p.m., Chicago standard time.

"Judge Parker was nominated July 9 at 5:30 a. m., St. Louis, Mo.

"It would be unsafe to choose a winner without a careful examination of the individual horoscopes of the candidates, their time of birth not being accurately known.

A comparison of the horoscopes made for the moment each candidate was nominated shows some interesting facts.

"President Roosevelt was nominated under conditions that are evil and conflicting. There are strong indications that religious agitation of some kind will play an important part in the campaign and that foreign influences of a character unknown to previous campaigns will play an important part, and may seriously impair the prospects of the Republican candidate, if not actually defeat him.

"The Democratic horoscope appears the more fortunate of the two, and favors the election of Judge Parker. The party will be seriously annoyed by treacherous and incompetent subordinates, and will be seriously harassed by underhand schemes and secret tactics.

"The President's horoscope shows serious afflictions the present year and will have a strong opposition to contend with. Furthermore, both candidates were nominated under conditions in which the eccentric and erratic planet Uranus plays an important part. There are strong probabilities that the campaign will develop conditions which will upset all calculations, resulting in a state of affairs entirely unknown in American politics.

A BIG REVIVAL

A big revival has recently closed at New Union church, Livingston county, Ky.

Rev. A. W. Dutton has been selected as pastor of this church for the present year, and he has been preaching with power and with demonstration of God's mercy to those who are in darkness and bringing them into divine light; and by the power of God and the help of this divine grace there there were 41 souls brought to Christ.

Brother Dutton commenced the meeting July 23, during the deacons meeting and carried on one week, when he was compelled to leave, and other brethren continued it a week longer.

There were seventeen additions to New Union church and there are others who will join the 4th Sunday in August.

The baptising will take place Aug. 28.

There has been a glorious awakening for good in this reunion.

Following are the names of those professing faith in Christ: Fannie Mathews, Ada Vaughn, Cathrine Vaughn, Annie Watson, Arthur Singleton, Cora Watson, Bent Monroe, A. D. RAGIC DEATH.

Messenger: One of lamentable accidents ever happened on the route was the killing men Hoback and Harvey. Two young men, four miles west of this city, at midnight Sunday. They were evidently sleeping by the side of the track, using the rail as a pillow. Their heads were crushed, while the remainder of their bodies were uninjured. Both Hoback and Allen lived at the Hoback mines. Hoback was a son of Lewis Hoback, owner of the mines, and Allen was a son of Harry Allen and was employed in the office at the mines.

The bodies were found early Sunday morning, by an employee of the road. They were stretched by the side of the track and had apparently been hardly moved by the passing train. It is certain that they were killed by the midnight passenger train west bound.

The young men went to a dance Saturday night at the home of W. Cole, near Mattingly's distillery, where they spent the evening. Members of the Cole family say the young men left the house a few minutes after 11 o'clock. The bodies were a mile and a half from the Cole house, and it was evident the boy's had sat for some time beside the track. A number of cigarette stubs and a quantity of tobacco juice were beside the track where they had sat. Evidently they became sleepy and probably unconsciously lay down with their heads on the track. They could not have been in this position many minutes when the train came.

Coroner Hayden was notified as soon as the bodies were found and reported to the scene at once and inquest was adjourned. A verdict was returned in accordance with the facts.

ONE OF Uncle Sam's Soldiers CURED OF blood poisoning BY FOERG'S REMEDY

Sergeant J. S. Smith of Company L, 12th Infantry, during service in the Philippines from 1899 to 1902 contracted a severe case of blood poisoning. He tried many remedies and treatments upon his return to the United States without any benefit, and **FOERG'S REMEDY** was strongly recommended to him. The use of four bottles absolutely cured him. If you doubt this write to him, addressing J. S. Smith, care St. George Hotel, Evansville, Ind., and ask if this is true.

FOERG'S REMEDY has cured him why not you? Why do you go on suffering the mental tortures of the damned when you know here is a cure certain and sure. It is a cure not worth \$5.00 to you? Then call it will cost, for we absolutely guarantee six bottles at a cost of \$5.00 to cure the worst cases of specific blood poisoning. Think of the joy to you in the return of perfect clear health, and go at once to the below address and get this wonderful remedy. It is manufactured by

OBITUARY.

Little Geneva Riley closed her eyes in death on Sunday morning, July 21st, aged 3 years.

On Thursday evening, at 10:30 o'clock, Aug 1st, little Home passed away, aged 11 months.

Our darling little loved ones have gone from us to heaven, and they are now in the arms of our Saviour, where we know they are blessed. It is so hard to give up our darlings forever. We know they can not come to us but we can go to them. When those darling babies left us the light went out from our home.

Oh, how lonely it seems to us. When we leave our home and come back, no little Geneva to meet us at the door with a kiss; no little song to cheer all sorrow from the heart, no loving little voice singing so soft and modest, "My train shall be on time." No little Home to meet us with a smile, he could not talk or sing, but his sweet little smile we never can forget.

They were our darling little babies and they were laid side by side beneath the sod with roses in their hands, resting sweetly with God.

We look at mamma's sad face, papa's heavy heart, the vacant chair and cradle, but we can only say, farewell, we will meet you in the sweet by and by.

Over the river they beckon to me, Loved ones who've cross to the farther side.

The gleam of their snowy robes I see,

But their voices are lost in the dashing tide,

Those two with ringlets of shining gold

And eyes the reflection of heaven's own blue.

Has carried in the twilight, gray and cold

And the pale mist bid them from mortal view.

We saw not the angels that met them there,

The gates of the city we could not see.

Over the river my brother, my sister are waiting for me.

They carried on the bosom a dimpled hand

And they fearlessly joined the angel hand,

We know they are safe on the other side,

Where all the ransomed and un-gota abide,

I shall know our loved ones, gone before

And joyfully sweet will the meeting be,

When over the river, the peaceful river,

The angel of death shall carry me

Lillie Riley.

THE CALL.

(Chicago Tribune.)
Came Mrs. Brown to call
On little Mrs. Jones.
They greeted in the hall
In most delighted tones.
"So rushed," said Mrs. Brown.
"I really cannot stay—
I've been all over town,
It seems to me today!"

And then they talked of books,
Of music and of clues,
Of chambermaids and cooks,
Of laundry tubs,
Of candies and of soup,
Of churches and of gowns,
Of flowers and of group,
Of how to ward off frowns.

Of wrinkles, freckles, too;
Of divorces and brides,
Of scandals old and new,
Of fashion's latest strides,
Of neighbors and of friends,
Of enemies and of kin,
Of pleasing coffee blends,
Of where "she" got that pin.

Of certain people's debts,
Of certain people's lights,
Of the contending sets,
Of certain women's spites,
Of papering the hall,
Of which each one had read,
Of which one owed the call,
Of what somebody said

Of how "she" held her looks,
Of golf, and cards and tea,
Then back again to cooks

And then, "Oh, goodness me!"
Cried Mrs. Brown at last,
"I must be running on
The afternoon is past—
At least it's almost gone!"

"That's one thing I detect
About a formal call—
One has to look her best
And scarcely talk at all
Stop in, my dear, some day

When you're out for a walk—
There's so much we could say
When we've time for a talk,"

Wood and Iron Wheel Carried Two Hundred Miles Down the Ohio River.

A queer coincidence, showing the vagaries of the current of the Ohio river, was proven this week, says the Hawesville Plaindealer.

About twelve years ago a company was formed here to prospect for oil and a couple of deep holes were sunk just above the town limits. A piece of material known as a "bull wheel" was used and fell into disuse with the rest of the machinery and remained as a piece of rubbish until a few weeks ago, when it disappeared. The wheel was made of wood and iron and braved the tide of the river all these years. About a month ago a company, in which Hawesville and Cloverport men are interested, began prospecting for lead near Golconda, Ill. Some of the same men interested there were interested in the oil wells here and their money built the wheel in question.

About ten days ago this same wheel was found in the river at Golconda resting on the shore or property now owned and operated by the people who built it here more than a decade ago. It is passing strange, to say the least, that a piece of machinery should last so far and more strange that it should find a stopping place on territory belonging to its former owners and builders. The distance is more than 200 miles.

ASTORIA. The kind you have always bought
Bears the signature of *Cast & Fletcher*

Recollections of a Mosby Guerrilla, we understand, is the title of a new serial which is to begin in the September number of *Munsey's Magazine*, and promises to be the most interesting and stirring contribution to the history of the Civil War that has yet been handed down to us from that awful period. The author, John W. Munson, was a member of Mosby's famous Partizan Rangers. Mr. Munson takes up his story from the day he began his tramp from Richmond one hundred and twenty miles to the Blue Ridge Mountains, where he joined the Mosby Band at the residence of Mr. Blackwell, near Maghan Station, in 1863, and carries it to the close of the war describing all of the sensational fights, raids, hand to hand conflicts and engagements that befell the little band, which no time numbered over three hundred men. Heretofore unpublished pictures will illustrate each installment.

VISITORS WORLD'S FAIR HOTEL

The Visitors World's Fair Hotel has for its purpose a location absolutely unsurpassed. It is unique and unlike any others in this, that it is near the Main Entrance and the principal Fair buildings and the center of attraction, and, at the same time, removed from the noise and confusion of the streets. It is located at the highest point of the city, in the center of a grove, two whole blocks in extent, surrounded by trees, greenhouses and shrubbery, insuring quiet and rest after a day's sight seeing.

It is directly opposite the Washington Terrace and Bell Place, the beautiful residence district, and it seems as if nature, art and circumstances had combined to make this the ideal World's Fair site for a hotel or home.

Street cars pass the entrance to our Grove every two minutes from Union Station and all parts of the city. Visitors coming via the Rock Island, Wabash, or the Kansas City & Colorado Railroads are landed at World's Fair Terminal at the main entrance, near our hotel. The Wabash will run special trains every few minutes from the Union Depot to this terminal.

The building is provided with modern conveniences. It has a roof garden and a splendid Observation Tower, overlooking the city. Fair and illumination presenting a view ideally beautiful.

During the summer months the cool southwest winds, laden with the aroma of the trees and flowers of the grove, reach you, and, in the evening, the large roof garden is a favorite meeting place for recreation, socials, concerts, lectures and entertainments.

The building is but two stories high and is lighted with electricity throughout, and the sanitary plumbing is of the most improved type. Each room faces the outside, has call bell and rooms are large, light and airy. Long distance telephone enables members to communicate with friends everywhere.

The dining room is tastefully and daintily arranged, and everything is absolutely new and fresh from foundation to roof.

Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright, of New London, New York.

For the House-Keeper.

Exclusive ability and originality are the two secrets of successful hospitality, and the limitation of the purse need not keep one from the attainment of this purpose, says Eleanor Merchant in the September Delineator, and in proof thereof gives a number of original plans that will prove the maximum of entertainment at the minimum of expense. A unique popcorn party, a home picnic, supper or luncheon served in true outdoor style and a peach fete are some of the suggestions. In the same number are given refreshments for a garden party, and among the culinary topics are various receipts for egg-plant and oyster sauce, and for sweet sandwiches and frozen desserts.

Kentucky News.

Lang Bros. Druggists, Paducah, Ky., write: "We sell more of Dr. Mendenhall's Cholera and Fever Cure than all other remedies combined, having retailed over 700 bottles in one season. The physicians here prescribe it and persons who use it once will have no other." Children like it.
